

Press Release

PayQuid, a FinTech Startup in Nigeria, Joins
FasterCapital!

PayQuid FinTech app is a mobile application that provides cash withdrawals. PayQuid is raising \$200K to build an app that provides all the solutions to the problems of ATM card theft, cloning, and hacking.

The startup has recently joined FasterCapital's [Tech Cofounder](#) program. The program will help PayQuid build the product and find the technical team needed with the right skill sets. FasterCapital will also cover 50% of the costs needed.

Mr. [Obinna Justice Amadikwa](#) says that the team at PayQuid is looking forward to this collaboration with FasterCapital and that they are working hard on making payQuid a pioneering FinTech business.

Mr. [Hesham Zreik](#) says, "FasterCapital is glad to be working with PayQuid on improving the business and on finding the resources needed to get it going."

FasterCapital is an online incubator and accelerator. It provides services in different areas. The programs include:

the [Tech Co-founder](#) program, the [Grow your Startup](#) program, the [Raise Capital](#) program. FasterCapital supports businesses in FoodTech, HealthTech, FinTech, Media, Entertainment, Ecommerce, Gaming, and many other industries.
